

## WHY DO SO MANY SUPER SUCCESSFUL PEOPLE IN THE WORLD BUILD CUSTOM YACHTS?

An interesting question to be sure, and the answer is that when properly managed building a custom yacht like a Hargrave is the ultimate experience in the world of yachting. A reward, if you will, for those select few individuals, like yourself, who have reached the pinnacle of success after a lifetime of hard work and self sacrifice and are looking for a yachting experience to match your accomplishments.

Words can't begin to fully describe the sense of excitement and anticipation you will experience while completing your own custom Hargrave which was driven from day one by your own creativity and personal desires. The magnificent Hargrave yacht that will bear your name at the end is truly an accomplishment to be proud of and a once in a lifetime experience. Perhaps that's why so many Hargrave owners return to repeat the experience.

If you are in the market for a yacht in the 70' – 136' size range take the time to talk to us here at the boat show about your own dreams and let us show you how Hargrave can make them a reality and do it at a price that compares to ordinary production boats. Like so many other great memories in your lifetime, this one is worth the wait. Then again, the best things in life always are, aren't they?

IF YOU BUILD A HARGRAVE  
IT WILL CHANGE YOUR LIFE.  
WE GUARANTEE IT.

— MICHAEL DICONDINA, PRESIDENT
