## 125' 2013 Hargrave Tri Decks

When we premiered our spectacular new 136' Hargrave DREAMER at the boat shows we assumed everyone would ask, "Can you built it bigger?" which is normal, and yet several clients asked if we could scale it back a bit. The 125' yacht above was designed for an existing 97' Hargrave owner who wanted a five stateroom layout. After dealing with the historic problems of crew turnover he also decided it was well worth the investment to give each crew member his own cabin. As with a fuel curve, when the cubic volume began to drop the pricing dropped dramatically and the value became obvious. If you are in the market for a five or six stateroom tri-deck take a look at the creative options Hargrave is currently offering and competitively priced at \$14.0 million fully loaded with attractive terms and financing available.

## 70'-78' 2012 Hargrave Motoryachts

If you are looking at production boats in this size range, maybe you should look at creating your own custom masterpiece with Hargrave. Whether you are looking for modern styling and performance like this project, or you are looking for trawler or LRC styling in this size range with trans-Atlantic range, Hargrave is the place to go with your dream. In the past few months we have seen a real surge of interest in custom yachts in this size range and we are seeing some great creativity in the designs our customers are creating. The common denominator is these owners enjoy making all the necessary decisions on the water and having a hands-on relationship with every piece of equipment onboard. Custom designed, custom built, and yet priced to compete with production built yachts. Priced from \$3.5 - \$4.5 million fully equipped with special terms and financing available.

## If you build a Hargrave it will change your life. We guarantee it!

If you ask any Hargrave owner they will tell you that building their custom yacht was a once in a lifetime experience for them. In fact, over 50% of our owners returned to build more than one Hargrave. Over the past twelve years Hargrave has perfected a management and production system that removes the risk and uncertainty historically associated with custom building and allows our Hargrave owners to enjoy the incredible sense of satisfaction that comes from a creative project like this. When you look at our program, our competitive pricing, our special terms, and then look at the finished product and you will agree that building your own custom Hargrave may be your best option. For more information go to our new boat web site - [www.hargravecustomyachts.com](http://www.hargravecustomyachts.com).
