Vessel Walkthrough

This flybridge model offers an open and airy layout, with views all the way forward from the salon to the helm. Warm Sapelli wood is found throughout, as well as hand-selected granite and interior details. Rich colors of marine blue and burgundy abound, accentuated by soft textures and eye-catching architectural details. The forward helm is complete with a Stidd pilot's chair and a dinette to port. Forward ocean views make for a pleasant dining experience. A starboard staircase from the galley leads down to the 4 owner and guest staterooms. A Sapelli wood ensconced foyer leads to the full-beam master cabin aft, port and starboard twin guest staterooms and a forward VIP stateroom. You and your guests will find every creature comfort desired in these finely appointed staterooms. The top deck of CRAB POT consists of a large

flying bridge with a custom Eisenglass enclosure and fiberglass hardtop. Aft of the enclosed space is a large sundeck with room for a hot tub, tender and davit.

Accommodations

"Crab Pot" is a gorgeous open floor plan yacht with 4 staterooms below deck and accommodations for 8 overnight guests plus 2 crew. Each stateroom has a private en suite head with a full shower, and the master stateroom has his and her heads. This yacht is ideal for travel and entertainment.

Salon

The main salon can be described as comfortable luxury, with a spacious seating and entertainment area. A generous sofa is found to port, complimented by two arm chairs to starboard, as well as a large chair and ottoman fitted with attractive paisley fabric in colors of marine blue and taupe. This lovely salon is accentuated by great views through port and starboard windows with custom window treatments, as well as carefully placed lighting, a plush textured carpet, and several high-gloss wood tables to display art work and personal items. A Marantz 42" HD Widescreen TV and sophisticated audio/visual package complete the entertainment features. The open floor plan easily transitions into the defined galley with the addition of two bar stools that share the space between the main salon and the granite clad counters in the galley. This adds a sense of continuity and also creates more seating.

Galley

The galley flows nicely from the main salon, yet is defined by teak and holly flooring, as well as Sapelli wood cabinetry topped with gorgeous granite in a speckled tan color that pops in contrast to the dark wood. Two large counters project from the port side, making them ideal for food prep and service, and flush with each counter is a pair of bar stools so you and your guests can make full use of this well-designed galley. To starboard a row of Sub-zero refrigerators and freezers with matching wood panels are designed for optimal food storage. This area also houses a Sub-zero undercounter wine cooler. With a full oven, stovetop, microwave and double sink, you will be able to create culinary masterpieces with no stress. The forward flow of this yacht continues with movement into the helm and dinette area.

Master Stateroom

Relaxation is the theme below deck, starting with the beautiful master suite. Taking center stage is a king size bed fitted with rich crimson red fabrics that are accentuated by beige and gold tones, as well as complimenting design motifs such as florals, diamonds and sophisticated stripes. This bed is further adorned with a tufted beige headboard and a large mirrored backdrop, which reflects light around the room. His and her walk-in closets are enhanced by a full set of storage drawers to starboard. The wood is detailed with a cross grain in a diamond-shape on several surfaces, adding life to the space. To port you will find more storage drawers and display counters, as well as an additional storage closet. This yacht is designed to accommodate extended travel with plenty of storage and entertainment features, such as the Sharp 26" HD LCD TV mounted on the forward wall. Other amenities include an en suite lavish his and her head. Eye-catching marble is splashed with color and sets the stage for the wood cabinetry and walk-through glass shower.

VIP Stateroom

Moving forward down the foyer you will find the well-appointed VIP stateroom. Your most important guests will feel right at home with a queen size bed fitted with plush fabrics and centered in the space. This stateroom has a smart design with every inch of space taken advantage of, such as the unassuming storage drawers that are built into the base of the bed. Port and starboard cabinets double as display counters and help create a balanced look in the room. This stateroom also features a Sharp LCD 20" Aquos TV, a large hanging closet and an en suite head with a full shower. Your guests may never want to leave...

Guest Stateroom

To port and starboard you will find two staterooms with (2) twin beds to accommodate 4 guests. These staterooms are dominated with neutral marine and navy blue colors that stand out against and accentuate the deep wood. Your guests will find all their needs met with amenities like Sharp LCD 15" Aquos TV's, large hanging closets, reading lamps, en suite heads and plenty of space to unwind and prepare for the next day's adventures. You and your whole family will find their comfort zone on this fantastic and accommodating yacht.

Fly Bridge

The top deck of CRAB POT consists of a large flying bridge with a custom Eisenglass enclosure that can be easily opened to transform the area, as well as a custom fiberglass hardtop for shade. Since this was the first Hargrave to be delivered directly to the West Coast, the Seattle based owners designed this yacht around the notorious weather of the area. Even if it is raining and cold, you can still enjoy the outdoors from this enclosed area. The forward helm has 2 Stidd helm's chairs for a Captain and crewmember, as well as a large viewing settee. More seating is found aft of this area, taking up the entire port side in the form of a large u-shaped settee that can accommodate a huge group of people and features bright aqua and ocean blue accent colors that create a sense of energy and fun. A large high-gloss finished teak table sits in front of this seating area for al fresco dining and general entertainment. Just opposite this seating area is an elongated wet bar with an amazing 5 bar stools in a bright marine blue. Just imagine the lavish celebrations you could host in this fabulous outdoor area. The enclosed portion of the flybridge is finished with carpet that gives it that polished look. Aft of the enclosed space is a large sundeck with room for a 60" round Whirlpool hot tub, a 26" BBQ Grill, and even a 15' Nautica tender, davit and various water toys.

Engine and Mechanical Equipment

- Twin Northern Lights 25Kw Generators (660 hrs)
- Genset exhaust gas bypass piping from the exhaust water separators aft of transoms
- Two additional florescent light in engine room
- 2 Florescent lights over aft generator
- Cruiseair A/C and Heating System (1) 24000 BTU in Salon (1) 12000 BTU in Pilothouse (1)12000 BTU in Galley (1) 16000 BTU in Master Reverse Cycle Units (3) 7000 BTU & Cruiseair VIP & 2 Twins
- Kabola Diesel Fired Hot Water Heating System with zone control and loop connected to Torrid Water Heater
- (2) Xantrex Prosine 3.0 24VDC 110V 60HZ 300 Watt Inverter w/remote w/Dynol C16

Batteries

- Pullout Docking Station forward of starboard Pilothouse door , port aft
- Trolling Valves connected to MMC's trolling box
- Groco 639-3000-00 Seacock System includes SBV, bilge strainer, Seacock Adaptor and pipe-to-hose fitting for 3" pipe of engine sea water intake
- Naiad Stabilizer System Model 254 with 9 sq. ft. fins w/multi 2000 and w/Naiad Fairing Block
- Double stabilizer & bow thruster backup pump on back of prt & stb engine
- Naiad HPS Stern Thruster 10HT 25HP w/4 controls
- Tide Marine Dripless Shaft Seals on shaft and rudders
- In-Line Recirculation Hot Water Pump
- Fuel capacity total - 2700 gallons
- (2) 50 AMP Cablemaster located on transom
- Stern Line Tying System with 100' of 1/2" Line on transom
- Two layers of insulation in engine room
- Double insulate wall between Master and prt & stbd guest cabins
- Bennett trim tabs
- Dolphin Battery Charger - 80 AMP x 1, 30 AMP x 2
- (2) 80 amp Sentry / Dolphin AC/DC light transformer 110/24V
- Two Watertight door in Galley
- Watertight bulkheads in engine room
- Double Racor 1000MA Fuel Filters / Water Separators on main engines
- Awlgrip paint in engine room
- Engine Chrome Package
- Seafire Extinguishing System w/manual pull in Crew FM 200
- One oil change Reverso oil pump
- Newmar Converter 50A 24V/12V x 2
- Upgrade to Raritan 30 Gallon Hot Water Tanks x 2
- Safety rails around twin engines
- 125 Gallon holding tank w/indicator at Helm Station
- Smoke Detection and Alarm System
- Kahlenberg air horn
- Pneumatic Sliding Door with Sensor and Manual control for Main Salon
- 6 Headhunter heads
